Constitution of the Graduate Student Association
As of 10 April 2006

Article I. Name and Purpose

Section 1. Name
The name of the organization shall be the Graduate Student Association, abbreviated as GSA.

Section 2. Purpose
The purpose of the GSA is to represent and give voice to the concerns of all graduate and professional students at Miami University. The GSA will work to foster greater participation of graduate students in the Miami University community, and will serve as a channel of communication between the graduate students and other segments of the University (i.e. the faculty and administration). The GSA will help institute and encourage initiatives central to graduate student welfare at Miami broadly conceived. GSA is likewise responsible for administering the Graduate Travel Assistance Fund. Departmental participation in the GSA is required in order for graduate students in that department to remain eligible to receive travel reimbursement from this fund.

Article II. Membership and Representation to the GSA

Section 1. Membership
The membership shall be open to all graduate and professional students currently enrolled or enrolled in the previous semester at Miami University. No further requirements may be imposed. No dues, nor any other membership fee, shall be collected. Likewise, all general meetings are open to the entire graduate population and students not serving as departmental representatives are nonetheless encouraged to attend.

Section 2. Representation to the GSA
Each division within the graduate and professional student body is invited to have representation to the GSA. Academic departmental and programs (including interdisciplinary programs) are asked to provide a representative to the GSA. The GSA expects specifically intra-divisional nomination and voting policy in determining divisional representation. While the GSA encourages divisional autonomy in regulation of their representation, if a department is not being represented at the monthly meetings, the GSA will contact that particular department and ask that a new representative be selected or appointed.

Section 3. Departmental Representative Responsibilities
Representatives selected to serve their particular departmental constituency must attend ALL regular GSA meetings over the course of their term. If for some reason a representative cannot attend, then an alternate should be sent in her/his place, as funding for travel is directly tied to departmental attendance of the regular GSA meetings.
Representatives are responsible for forwarding and distributing all announcements and information disseminated by the GSA to all graduate students in the representative’s home department or program. In order for transitions to work smoothly from year to year, departmental representatives or their respective department or program administrators are responsible for appropriately finding a successor for the following academic term before the first meeting of the next academic year.
